

ACostE North East Branch: Breakfast Workshop

THURSDAY 19TH NOVEMBER 2015

‘DEMYSTIFYING THE NEC3 ECC WORKING AREA OVERHEAD’

The percentage for Working Areas overheads under Options C, D and E of the NEC3 Engineering and Construction Contract (ECC) causes much confusion in practice, with users often unaware of what it is, how it is calculated and how it interacts with the Schedule of Cost Components. The session will help users understand the answers to common queries such as:

- What are the Working Areas under the contract? Can head offices be part of the Working Areas?
- What is the purpose of the percentage for Working Areas overhead and where does it fit in the contract?
- How do you calculate the Working Areas overhead percentage?
- Can you audit the percentage for Working Areas overhead?

Please join us for refreshments in the Castle View Suite, Durham County Cricket Club, Emirates Durham International Cricket Ground, Riverside, Chester le Street, County Durham DH3 3QR @ 08.00.

Workshop to commence 08.30, finishing 09.30 with networking to 10.00

KEY SPEAKER:

JOHN ROSSITER
SOLOMONS EUROPE

A CHARTERED SURVEYOR AND EXPERIENCED NEC3 PRACTITIONER WITH EXTENSIVE KNOWLEDGE OF THE FORMULATION AND ADMINISTRATION OF THE NEC FORM OF CONTRACT IN THE WATER, PROCESS AND ENERGY SECTORS, GAINED IN COMMERCIAL MANAGEMENT ROLES ON BEHALF OF A VARIETY OF CONTRACTING ORGANISATIONS.
