## SAVE THE DATE

**Our first meeting of 2023 will focus on two major packages of work released under PPP's pioneering Multi Project Procurement commercial model.**

**The KDP8 Concrete Structures, Groundworks and Blockwork framework could be worth a staggering £1bn over 17 years and there is enormous potential for SMEs to support its recently appointed Key Delivery Partner Sir Robert McAlpine.**

**The same rings true for KDP9 Building Fit-out which was awarded to Seddon Construction last year. The meeting will include an overview of the packages and the opportunities to get involved.**

**We'll also be holding short breakout sessions offering relevant SMEs the chance to speak directly to key decision makers at both Sir Robert McAlpine and Seddon.**

In the next few days, we'll be issuing exclusive invites to SMEs that have currently registered an interest in KDP8 and KDP9. If you do not receive an invite then please, rest assured, you're not missing out. Space is limited and there will be plenty more opportunities to engage with Sir Robert McAlpine and Seddon, who we have built strong relationships with during the pre-qualification and ITT stages and look forward to supporting throughout this process.
